

Are you or someone you
love suffering from

Major Depressive Disorder?

[Name of Clinical Site/Hospital] is recruiting adults 18 and older for a new clinical trial using the SAINT™ Neuromodulation System, a novel investigational treatment for major depressive disorder (MDD).

To qualify, you must be 18 years or older, have a diagnosis of MDD, and have tried at least one antidepressant medication without satisfactory improvement in your condition. There is a cost to participate.

YOU ARE NOT ALONE
